A Performance for All of Asheville

Just Home in the Mountains celebrates and honors the experiences of all of Asheville's community members. A diverse, intergenerational cast will perform local stories in an original play that reflects the people and stories that make Asheville unique. Actors, set designers, musicians, writers, directors, and other local residents are trained by CPI artists to create a professional performance that is deeply rooted in the experiences, hopes and dreams of the entire community. The play will be performed twice a year and feature new stories and songs that change annually.

“The fabric of every community is made up of the stories of its people, from the most powerful to the almost invisible. Jules Corriere takes those stories and creates theater – Community Performance Theater – from them.”
